

# URGENT PUBLIC NOTICE

## ABOUT PLANNING AND BUILDING IN YOUR BOROUGH

### U.N. AGENDA 21 – THE WORLD’S BEST KEPT SECRET FOR 20 YEARS

#### Why has your local planning got out of hand?

It’s hard to feel safe where we live nowadays. You might buy a property and then find a few years later that there is a compulsory purchase order on the field adjacent to you. A couple of years after that and you’ll have hundreds or thousands of homes surrounding you to accommodate the ‘rise in population’, or, for example, to house the planned doubling of the size of Ashford Borough, which you did not vote for. Overall, these developments are centrally planned – outside our nation – via **U.N. Agenda 21**. And they will do nothing more than impact very negatively on the value of your homes, local resources, taxes and your lives in general.

#### What is U.N. Agenda 21?

Agenda 21 dates back to the 1970’s, but it came into being in 1992 when leaders of 178 nations, including Britain, signed it at the United Nations Earth Summit in Rio de Janeiro. Were you ever consulted? It’s a long term **global** plan to take complete control of **all** resources and land use in the world, right down to what you grow in your garden; and it is implemented **locally**. It is run by ICLEI – a **non-government organisation** (NGO) – a private global corporation which is based outside the UK. Agenda 21 is a complete and total attack on your individual rights, which are set aside against the interests of the ‘community’ – the **global** community. In short, it is a **global** power-grab, designed to dissolve your sovereignty, crush your individual rights, including ownership of your property; and it is being implemented by your **local** council and is being paid for with your **local** taxes. It is also supported by your local councillors – people who you elected in good faith to defend you and your local interests.

#### How does Agenda 21 affect planning in your area?

Many of you will no doubt have heard of the huge planned development in Chilmington Green, near Ashford (7000 homes), plus other developments in and around Ashford, such as in Tenterden (475 homes). Notice that they are only *homes*: there is no expanding manufacturing or industry. Indeed, we are being deliberately de-industrialised: notice how much of our industry is being sent abroad. For example, the government selected the German industrial group *Siemens* to make British trains. *Lotus* is now under threat to be sold to the slave yards in China. Moreover, there is no effort whatsoever to encourage small businesses and enterprises. All of our housing developments are part of Agenda 21’s so-called ‘sustainable development’ plan. Indeed, Ashford Borough Council admits they are driving forward a **25 year plan** to ‘double the size of the borough’. This is, of course, all without your permission, and is certainly not for your benefit. Remember, it’s a **25 year** plan, which means it’s a done deal – ever wondered why your voice is **always ignored**? In fact, we’re surrounded by long term plans, which is why nothing ever changes even when new governments are elected.

#### Public Consultations?

Notice that the council provides us with ‘public consultations’. These are designed to make you *‘think’* you have a say in the process. BUT YOU DON’T!

#### But don’t we have the Localism Bill/Act to defend our local rights?

You would have thought that the Localism Bill/Act was all about giving power to local people over local issues. WRONG! In the words of the Chilmington Green development website, [chilmington-green.co.uk](http://chilmington-green.co.uk), (which is directly connected with the big developers, *Landform Estates*), ‘The Localism Bill does encourage local people to be part of the decision making process, but **it does not give the power to veto Chilmington Green.**’ In other words, it’s going ahead anyway. Yes, there will be ‘consultations’ but these are a pretence. The Localism Bill/Act should really be called the Centralisation Bill/Act, and the ‘Decentralisation’ Minister the ‘Centralisation’ Minister and you have no rights.

## Other global – not local – corporations/companies you pay for

Here's a quote from the government website, Direct.gov.uk, which defines local councils:

'...Local councils are run by elected councillors who are **voted for by local people**. Councillors are responsible for making decisions **on behalf of the community** about *local services*, for example rubbish collection and leisure facilities, and agreeing budgets and Council Tax charges...'

Have you ever studied your local council's ledger? You might find it interesting: quite a large sum of your local taxes seems to go to international organisations which offer 'training' and 'tools'. What 'training' and what 'tools', and why are we paying **local** taxes to any **global** organisations? You may also see how much money is spent on 'monitoring the environment', and you might find it sizeable. But it is all in the name of Agenda 21. Surely we can run our own local council with councillors who represent our views, while using local businesses rather than international companies?

## What can we do about this huge infringement on the rights of the individual?

- **Do some research on UN Agenda 21 – get informed about this globalist power-grab.** You haven't been told about this by any of the mainstream media because those running this power-grab also run the media and they don't want you to know: it's about taking from you to benefit them. Download and read a pdf copy of Agenda 21 from the United Nations website. Most important information is in Chapter 7 – *Human Settlements*; also the last chapters where technology and methods for implementation are discussed.
- **You have a right to ask that your local councillors represent your local interests only**, and to ensure that they are working for you as public servants, NOT directly or indirectly working for private global organisations.
- **You have a right to ask for the return of all money unofficially spent by your borough council.**
- **Spread the word** – '*My people are destroyed by lack of knowledge!*' *Hosea 4:6*. The more people know about this betrayal of our local needs the more we can do about it.
- **Be active** – if you feel you need to, don't just get your name down on a petition that might just get lost somewhere, make sure that the campaign 'leader' is active with peaceful meetings and demonstrations, and is properly informed. Also, try getting to know who else is on the petition list and have your own meetings, with as many of you taking an active leader role as possible to spread the responsibility.
- **Write to your local paper and ask for it to get behind you.**
- **Buy local!** Support your local food suppliers and other local industry... etc

Don't just sit back and believe what you're being told. Do some research for yourself. It might help if you try the following:

DemocratsagainstUNagenda21.com; Rosa Koire Agenda 21 interview with Alex Jones (YouTube); Lord Monckton's Agenda 21 speech at dailymotion.com; for honest alternative news try Infowars.com, DrudgeReport.Com; and try France 24, Al Jazeera and Russia Today ; look up the Delphi Technique (mind control used by those pushing Agenda 21) and so on.

## Don't accept only what the mainstream controlled media has to say - the real news is out there if you want it

Did you know that there is an **impeachment bill in Congress against the USA President Obama**? Probably not. That's because our main media streams in both TV and Press are economical with the truth and want to keep you in the dark as they push ahead their global agenda. Google '**Obama impeachment bill H.CON.RES.107.IH**' and you'll get to the US Congress website where you can see the impeachment bill for yourselves. Your local council should be fighting to have Agenda 21 removed as they are in Arizona USA with Senate Bill 1507. As Sen. Judy Burges said, 'The bill is designed to protect the rights of Arizona citizens and prevent encroachment on those rights by international institutions. We have three branches of government and when one branch pre-empts the process through executive orders, the balance of power is lost in the process. It is that simple -- no more, no less!'

**EXERCISE YOUR DEMOCRATIC RIGHTS TO SAY NO!**

**DEFEND YOUR COUNTRY AND YOUR LIBERTY - END AGENDA 21!**
